

MAC FORCE

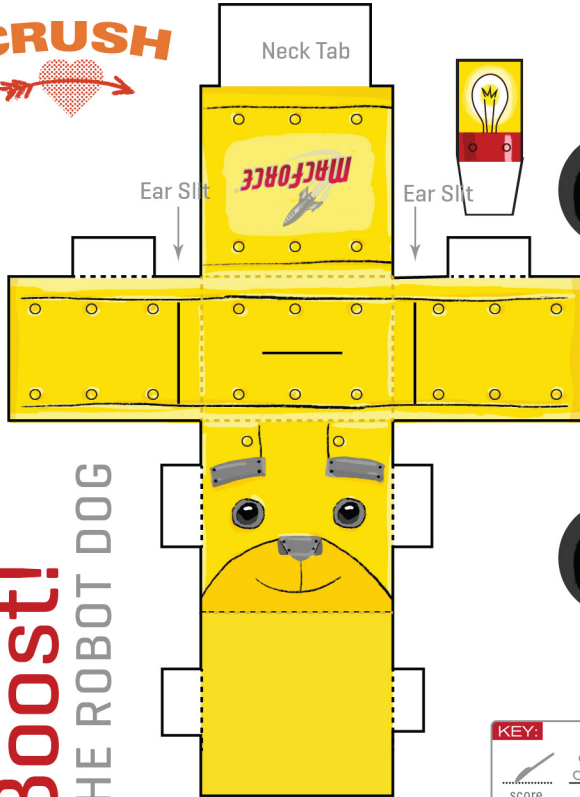

1. Cut along the solid lines. Score along the dotted lines and fold. Don't forget to cut the slits for the ears, lightbulb, tail, and head!

2. Glue tabs of the head to form the box shape of Boost's face. Slip in the ears to the side slit and the lightbulb in the top slit.

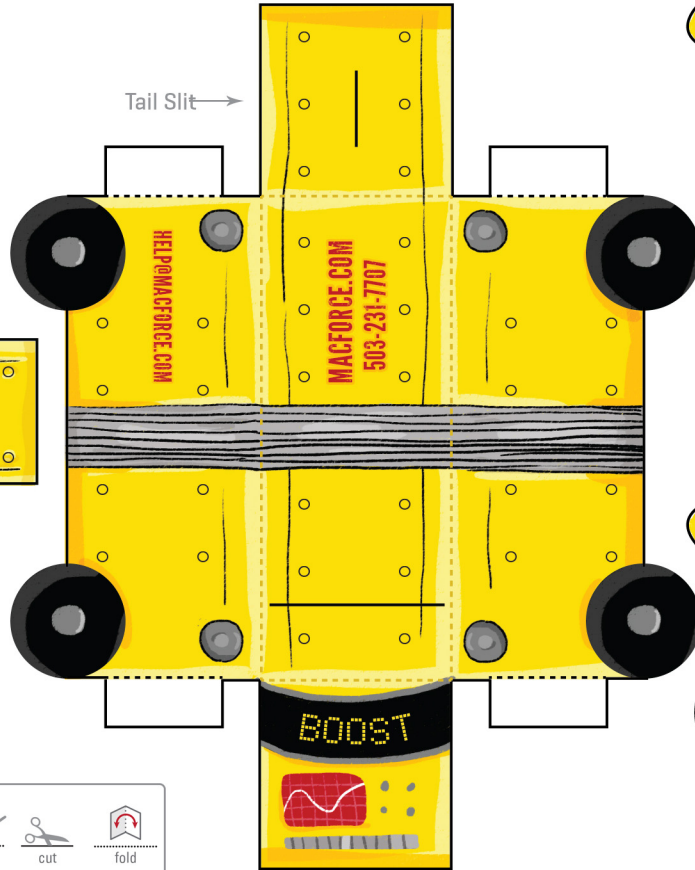

3. Glue tabs of the body to form the rectangular shape of Boost's body. Slip the neck tab into the slit on the body to attach his head.

4. Glue the back side of the tail and fold together. Insert tail in to the slit on Boost's back.
